

Dear Dr./Prof.

As a co-Guest Editor of the Genes Special Issue on Pharmacogenomics: Challenges and Future, I would like to cordially invite you to contribute (either alone or with a colleague/post-doc, etc.) with an original article or a review to this Issue.

We would be happy to receive your excellent contributions to this special issue. Should your response be positive, we would appreciate receiving within the next month a short tentative abstract (100–150 words) describing the topic covered in your contribution. Manuscripts can be submitted before 1 December 2021 to the Editorial Office (nancy.guo@mdpi.com).

Please access to the following link for further reading about this special issue, belonging to the section “[Molecular Genetics and Genomics](#)”:

(https://www.mdpi.com/journal/genes/special_issues/Pharmacogenomics_Genetic)

Benefits of publishing in Genes:

1. Open access: Genes is an international peer-reviewed open access journal of MDPI, free for readers, with article processing charges (APC) of CHF 2000 (Swiss Franc) currently applies to papers accepted after peer review and paid by authors or their institutions.
2. High visibility: indexed by SCIE (IF 3.759) and Scopus. Citations are available in PubMed, full-text archived in PubMed Central.
2. Rapid turn-around: 16.4 days from submission to first decision; acceptance to publication in 2.6 days (median values for papers published in this journal in the second half of 2020).

You may log into the online system at <https://susy.mdpi.com> to check the status of all submissions in the Special Issue at any time.

I hope that you will agree to join us in this exciting and important special issue. I look forward to hearing from you.

Best Regards

Mariamena Arbitrio
